VPS Comprehensive School Counseling Program

Use of Standards	
Supportive Resource: Self-Assessment Section 1	
SSB5030: Districts must develop a comprehensive school counseling program (CSCP) that uses state and nationally recognized counselor frameworks and is systemically aligned to state learning standards **Considerations for Districts:** · Alignment with district's Strategic Goals · Collaboration with school counselors regarding the incorporation of standards · Professional development around school counseling standards	The Vancouver Public Schools Comprehensive School Counseling Program (CSCP) will align to these standards in the three school counseling domains of Academic, Career, and Social-Emotional Development: ● WA SEL Standards ● ASCA Mindsets & Behavior Standards ● The Social Justice Standards
Use of Data	
Supportive Resource: Self-Assessment Section 2	
SSB5030: The district CSCP must provide a process for identifying student needs through a multilevel school data review and analysis that includes, at a minimum: ● Use of time data ● Program results data ● Data regarding communications with administrators, parents, students, and stakeholders **Considerations for Districts:** · Alignment with district's Strategic Goals · Collaboration with school counselors regarding how data will be used to inform the identification of student needs · Professional development around use-of-data	The Vancouver Public Schools Comprehensive School Counseling Program will identify student needs through the following processes by completing a School Data Summary to be uploaded into the ASCA Model Program portal. Vancouver Public Schools school counselors implementing the CSCP will perform a use-of-time study at least once in the fall and once in the spring times per year. Annual Student Outcome Goal, Classroom, Small Group, and Closing the Gap Results will be shared with administrators and representative stakeholders at the spring advisory council meeting.

• Collaboration with district data support teams to procure necessary data	
SSB5030: The district CSCP must establish an annual review and assessment process for the comprehensive school counseling program that includes building administrators and stakeholders	The Vancouver Public Schools School District, alongside school counselors (and other ESAs assigned to implement the CSCP, if applicable), building administrators, and other stakeholders will review the comprehensive school counseling program annually. ● The process will include the following data and processes: ○ School Data Summary ○ Annual Student Outcome Goal Plan ○ Annual Administrative Conference ○ Spring Advisory Council
Use of Time	
Supportive Resource: Self-Assessment Section 3	
SSB5030: The district CSCP must explain how direct and indirect services will be delivered through the comprehensive school counseling program ● 80% of school counselors' or other ESAs' work time is spent on direct and indirect services for students, aligned with the standards developed by a national organization representing school counselors. **Considerations for Districts:** ● Collective bargaining agreements/contracts and the allowable activities detailed within them ● Staffing considerations related to who will be providing which services considering the suggestions for use of school counselor time ● Professional development around use-of-time and effective teaming between school counselors and building administrative staff	The school counselors (and other ESAs implementing the CSCP, if applicable) will deliver direct and indirect services during 80% of their contracted Comprehensive School Counseling Program work time. Vancouver Public Schools district will create the environment for school counselors (and other ESAs implementing the CSCP, if applicable) to spend 80% of their time delivering direct and indirect services by: ● Understanding current non-counseling tasks assigned to school counselors and working to re-assign them to non-counseling staff. ● EProviding professional development for school counselors, administrators, and others to create better alignment to the ASCA national model.
