VPS Comprehensive School Counseling Program Transition Plan

District Name: Vancouver Public Schools	Prepared By: Brian Mathieson and Teresa Vance	Manager Name: Brian Mathieson

SSB 5030, requiring the development of Comprehensive School Counseling Program Plans, specifies that a **transition plan** be created and adopted by the school board, with implementation beginning during the 2022–23 school year.

- The purpose of this tool is to provide a template, in conjunction with the District Self-Assessment & Template, to guide the creation of districts' transition plans.
- The considerations listed are *suggestions* and not mandates.
- Please see the last page for an example of a completed component.

Transition Plan Components

Section 1: Use of Standards

A comprehensive school counseling program uses state and nationally recognized counselor frameworks and is systemically aligned to state learning standards.

District Self-Assessment & Template Section References: Section 1.1

Considerations for Districts:

- Alignment with district's Strategic Goals
- Collaboration with school counselors regarding the incorporation of standards
- Professional development around school counseling standards

Desired State of Expectations/Structures *What will this component look like once full implementation is achieved?*	VPS Counselors will complete Annual Student Outcome Goal Plans, Classroom & Group Results Reports, and Closing-the-Gap Action Plans that include WA SEL Standards, ASCA Mindsets & Behavior Standards, and/or Social Justice Standards
Transition Action Plan *What steps will the district engage in to incorporate the Use of Standards components in the Comprehensive School Counseling Program plan?*	VPS is partnering with the American School Counselor Association (ASCA) to implement a two year ASCA National Model training and implementation program for all district school counselors to include consultation, professional development, program implementation and districtwide program evaluation and improvement of a comprehensive school counseling program. The training consists of six full-day workshops presented over the course of two school years and is designed to specifically meet the district's unique needs based on school-specific data.
Partners Involved *Which partners will be engaged in this portion of CSCP implementation?*	The American School Counselor Association (ASCA)
Timeline toward full Implementation *What incremental steps during the 2022-2023 school year will your district take to ensure full implementation of this component by the 2023-2024 school year?*	All school counselors will use and evaluate student attainment of learning standards within their comprehensive school counseling programs by September 2023.

Section 2: Use of Data

A comprehensive school counseling program provides a process for identifying student needs through a multilevel school data review and analysis that includes, at a minimum, use-of-time data, program results data, and data regarding communication with administrators, parents, students, and stakeholders.

District Self-Assessment & Template Section References: Sections 2.1-2.4

Considerations for Districts:

- Alignment with district's Strategic Goals
- Collaboration with school counselors regarding how data will be used to inform the identification of student needs
- Professional development around use-of-data
- Collaboration with district data support teams to procure necessary data

Desired State of Expectations/Structures *What will this component look like once full implementation is achieved?*	• The Vancouver Public Schools Comprehensive School Counseling Program will identify student needs through the following processes by completing a School Data Summary to be uploaded into the ASCA Model Program portal. • Vancouver Public Schools school counselors implementing the CSCP will perform a use-of-time study at least once in the fall and once in the spring times per year. • Annual Student Outcome Goal, Classroom, Small Group, and Closing the Gap Results will be shared with administrators and representative stakeholders at the spring advisory council meeting.
Transition Action Plan *What steps will the district engage in to incorporate data into the delivery of the Comprehensive School Counseling Program plan?*	VPS is partnering with the American School Counselor Association (ASCA) to implement a two year ASCA National Model training and implementation program for all district school counselors.
Partners Involved *Which partners will be engaged in this portion of CSCP implementation?*	The American School Counselor Association (ASCA)
Timeline toward full Implementation *What incremental steps during the 2022-2023 school year will your district take to ensure full implementation of this component by the 2023-2024 school year?*	Days 3, 4, and 5 of the two year of the ASCA National Model training will take place in the school year 2022-2023.

Section 3: Use of Time

School counselors or other educational staff assigned to implement CSCPs must allocate at least 80% of their work time to providing direct and indirect services to benefit students, as aligned with national school counseling standards.

District Self-Assessment & Template Section References: Sections 3.1 and 3.2

Considerations for Districts:

- Collective bargaining agreements/contracts and the allowable activities detailed within them
- Staffing considerations related to who will be providing which services considering the suggestions for use of school counselor time
- Professional development around use-of-time and effective teaming between school counselors and building administrative staff
- Stipends for staff to provide services that do not fall into the recommended use-of-time duties of school counselors

Desired State of Expectations/Structures *What will this component look like once full implementation is achieved?*	• School counselors can dedicate 80% of their time to providing direct and indirect services to students • Building administrators are aware of the suggested work-time allocation for school counselors and work with their school counseling team to ensure clarity of the school counselor's role • School counselors are engaging in students support activities for most of their time that directly impacts students • School counselors and building administrators will be engaging in annual meetings to ensure alignment between school counseling tasks and building priorities
Transition Action Plan *What steps will the district engage in to ensure that school counselors are able to use their time effectively and appropriately (according to use-of-time guidelines)?*	• The district will train administrators and school counselors around the 80/20 suggested time-allocation • Building administrators will engage in training around effective teaming to ensure productive partnerships with their school counseling team
Partners Involved *Which partners will be engaged in this portion of CSCP implementation?*	• The American School Counselor Association (ASCA) • School counselors • Administrators • District administrators
Timeline toward full Implementation *What incremental steps during the 2022-2023 school year will your district take to ensure full implementation of this component by the 2023-2024 school year?*	• School counselors and administrators participated in Day one of the two year ASCA National Model training

Section 4: Use of Personnel

The CSCP must be implemented by school counselors or other educational staff associates for the purpose of guiding students in academic pursuits, career planning, and social-emotional learning.

District Self-Assessment & Template Section References: Sections 4.1 and 4.2

Considerations for Districts:

- Collective bargaining agreements/contracts and the allowable activities detailed within them
- Staffing considerations related to who will be providing which services considering the suggestions for use of school counselor time
- Professional development around use-of-time and effective teaming between school counselors and building administrative staff
- Stipends for staff to provide services that do not fall into the recommended use-of-time duties of school counselors

Desired State of Expectations/Structures *What will this component look like once full implementation is achieved?*	School counselors will implement the comprehensive school counseling program and upload documentation to the ASCA RAMP portal.
Transition Action Plan	VPS has appropriately staffed our schools with certified school counselors and made efforts to increase educational equity.

What steps will the district engage in to ensure that the appropriate ESA-certified staff are available and able to implement the CSCP?	
Partners Involved *Which partners will be engaged in this portion of CSCP implementation?*	• The American School Counselor Association (ASCA) • School counselors • Administrators • District administrators • Vancouver Education Association
Timeline toward full Implementation *What incremental steps during the 2022-2023 school year will your district take to ensure full implementation of this component by the 2023-2024 school year?*	This component is in place.
